In light of COVID-19 crisis, UN officials call for immediate release of all children in detention, including Palestinian children.

"We are seriously concerned over the continued detention of Palestinian children by Israeli authorities. At the end of March, 194 Palestinian children were detained by the Israeli authorities in prisons and detention centres, mainly in Israel, according to data released by the Israeli Prison Service. This is higher than the monthly average number of children detained in 2019. Of the total, the vast majority of these children have not been convicted of any offence but are being held in pre-trial detention."

A Statement by the Patriarchs and Heads of the Holy Land Churches on Israeli Unilateral Annexation Plans

United Nations #Palestine #Jerusalem #Churches #Annexation

PATRIARCHS AND HEADS
OF LOCAL CHURCHES OF JERUSALEM

A Statement by the Patriarchs and Heads of the Holy Land Churches on
Israeli Unilateral Annexation Plans
(May 7, 2020)

As a result of the stagnation of the Peace Process in the Middle East between the Israelis and Palestinians, an array of plans for Israel to unilaterally annex West Bank land, backed mainly by right-wing factions, raises serious and catastrophic questions about the feasibility of any peaceful agreement to end the decades' long conflict, one that continues to cost many innocent lives as part of a vicious cycle of human tragedy and injustice.
The Council of Patriarchs and Heads of the Holy Land Churches views such unilateral annexation plans with the utmost concern and calls upon the State of Israel to refrain from such unilateral moves, which would bring about the loss of any remaining hope for the success of the peace process.
The Council also calls upon the United States of America, the Russian Federation, the European Union, and the United Nations to respond to these unilateral annexation plans with a time-delimited and phased Peace Initiative in line with International Law and United Nations resolutions on the matter, in order to guarantee a comprehensive, just, and long-lasting peace in this part of the world that is considered Holy by the three Abrahamic Faiths.
We also call upon the Palestinian Liberation Organization, as the sole legitimate Representative of the Palestinian people, to resolve its internal disputes—as well as any conflicts with other factions that are not under its umbrella—in order to present a unified front dedicated to achieving peace and the building of a viable State that is founded upon pluralism and democratic values.

Press Statement

Arab Group Delegation Meets with UN Secretary-General in Mobilization against Israel's Illegal Annexation Plans in the Occupied Palestinian Territory

In follow-up of the emergency Arab Ministerial Meeting, convened on 30 April 2020, to address the looming threat of Israeli annexation of Palestinian Territory, the Arab Troika in New York, under the chairmanship of Oman and accompanied by the State of Palestine and the League of Arab States, met with United Nations Secretary-General António Guterres yesterday, 5 May 2020.

The Arab delegation emphasized the illegality of all colonization and annexation measures by Israel, the occupying Power, in Occupied Palestine, including East Jerusalem, and strongly condemned Israel's plans to annex large areas of the West Bank, including the Jordan Valley, northern Dead Sea area and lands on which it has illegally constructed its settlements and Wall, in grave violation of the Fourth Geneva Convention, UN resolutions and the Charter prohibiting the acquisition of territory by force. They deplored Israel's cynical exploitation of this period of global pandemic to advance these illegal plans, and underscored the international community's broad rejection and demands for a halt to these illegal actions.

the world people

When a person observes the nature of the moment while living in this world, thousands of ants line up one ant in front and lift up a stalk of peanut in a sand bar, and numerous peanut pods hang up and climb together You can see the coming phenomenon, which is like a phenomenon in which all living things in one stem leading to one earth, one universe, are connected in a single line, entangled, entangled, exchanged, bitten, and bitten.

Thus, the 21st century is a global era in which a complete world is connected as one, and a global government in which the whole world is united. Now, our people must be transformed from social perception to national perception to global perception from the personal perception of whoever lives where. This is because the global world is now turning too fast. The reason why the world's reason is moving too fast is because the reason of the great universe nature is changing so fast.

What we see and hear, smell, taste, think, eat, speak, and act. All of these are one by one. From now on, we must move to the notion that not everyone is one of the small corners of the world, but a large people of the world and a large country in the era of global e-government where everyone participates. The 21st century is a time when a great shift in human consciousness is needed.

As a result, the whole world emerges from your ignorance, from your ignorance, from your ignorance of the nation and from your ignorance of the nation. You have to understand well that you are going to be well. Even today, people of the world need to know that the transformation of consciousness is gradually taking place without anyone having to do it. Now, for the new world of the 21st century, we need to move toward a global world peace era, the era of the world e-government, a bright and warm world.

May 5 ·

Committee on the Exercise of the Inalienable Rights of the Palestinian People (CEIRPP)

Press Statement: 5 May 2020

"Annexation is a Threat to the Two-State Solution"

United Nations Palestine Rights Committee #Palestine #Rights4Palestine #Annexation United Nations United Nations OCHA occupied Palestinian territory

STATEMENT OF THE GENERAL ASSEMBLY COMMITTEE ON THE EXERCISE OF THE INALIENABLE RIGHTS OF THE PALESTINIAN PEOPLE

ANNEXATION IS A THREAT TO THE TWO-STATE SOLUTION

As the world's attention is turned to fighting the Covid-19 pandemic, the Palestinian people under occupation face an additional crisis – the threat of annexation.

Even during the unprecedented health emergency, Israel, the occupying Power, has continued to entrench the illegal occupation and openly announced its intention to annex large areas of the Occupied Palestinian Territory, while continuing the blockade of the Gaza Strip.

It falls on the international community to rally our support and solidarity behind the Palestinian people to prevent annexation, which constitutes a grave breach of international law and flagrant violation of UN resolutions, including resolution 2334 (2016), which calls for an end to the Israeli occupation that began in 1967 and the fulfilment of the rights of the Palestinian people, including to self-determination and independence. The prohibition on acquisition of territory by force is absolute in the UN Charter.

The expansion of Israel's control over the Palestinian territory, including East Jerusalem, is eroding the internationally agreed two-State solution. The goal of Israel and Palestine living side by side in peace and security along the pre-1967 borders, with East Jerusalem as the capital of the Palestinian State, remains unchanged, yet unattained and at great risk.

The Committee calls on Israel to heed the Secretary-General's recent call for a Global Ceasefire. It also calls on Israel to heed the long-standing demand for a halt to its illegal actions and practices in the Occupied Palestinian Territory, including East Jerusalem, including all measures aimed at entrenching the occupation and annexing territory. The Committee also calls on Israel, in accordance with its international law obligations, to ensure the full respect of the human rights of the Palestinian civilian population under its control and to provide humanitarian access and assistance, including to prevent the spread of Covid-19.

We in the United Nations have the tools to rein in violence and injustice, and seek peace, justice and security for all. We are committed to leaving no one behind. Not unlike the fight against the pandemic, each of us - individually, and collectively - must do our part and prevent the gross injustice of occupation and annexation. The Committee calls on the international community, particularly the Security Council, to shoulder its responsibilities and take urgent action to counteract the threat of annexation.

"...Today, we also underscore the Secretary-General's wise call for a
global ceasefire, which President Mahmoud Abbas has endorsed on
behalf of the State of Palestine. This must include a call on Israel, the
occupying Power, to cease its war against the Palestinian people; stop
its denial of their right to self-determination; stop its colonization and
de facto annexation of Palestinian land; end its immoral blockade on
the Gaza Strip; and release the thousands of Palestinians, including
children, that it has imprisoned, who are at great risk of contagion in
crowded, unsanitary prisons.

Israel must be unequivocally called upon to respect its legal
obligations under the 4th Geneva Convention, and accountability for
violations is imperative. Only in this way can human lives be saved and
can the potential for peace and justice ever be realized."

Today, 17 April marks #PalestinianPrisonersDay.

A renewed call to the international community has been made to ensure the protection of #Palestine's prisoners in Israel, especially amidst the outbreak of #COVID19 - and a demand that the occupying Power take immediate action to release all Palestinian child detainees.

"Israel, as occupying Power, is under legal obligation to ensure the physical and mental health and well-being of Palestinian prisoners and detainees. Article 10 of the International Covenant on Civil and Political Rights, mandates that "[a]ll persons deprived of their liberty shall be treated with humanity and with respect for the inherent dignity of the human person." Moreover, the UN Basic Principles for the Treatment of Prisoners (Nelson Mandela Rules) stipulate that, "Prisoners shall have access to the health services available in the country without discrimination on the grounds of their legal situation." Palestinian political prisoners languishing in Israeli detention centers and prisons are hostages to Israel's gratuitous cruelty and victims of its regime of oppression and subjugation, which has maintained this illegal occupation for decades. Approximately 5000 Palestinians are currently imprisoned by Israel in deplorable conditions, including 432 so-called administrative detainees languishing in prison without charge or trial. In violation of international humanitarian law, Israel subjects Palestinians to a myriad of racist and illegitimate laws that deny them their basic rights to due process and justice.

On the Day of the Palestinian Prisoner, the Palestinian leadership renews its call for the release of all Palestinians imprisoned by Israel. This call takes on added urgency, as 700 Palestinian prisoners suffer from chronic illnesses and other underlying conditions that make them especially vulnerable during the COVID-19 pandemic.

As the Palestinian people confront the challenges of colonial occupation and this vicious virus, Israel has persisted in its illegal policies against Palestinian prisoners. It has denied them access to family and lawyer visits and refused to take any preventive measures inside prisons, including testing for COVID-19, even after 1 prisoner tested positive upon release and several occupation officers in prisons have tested positive. Israel has also persisted in its illegal policy of arbitrary mass detention of Palestinians. Since the outbreak of the pandemic, Israeli occupation forces have detained 357 Palestinians across the Occupied Palestinian Territory, including East Jerusalem. Among those detained are 48 children.

As an occupying power, Israel has undeniable and binding obligations under international law. It is directly responsible for the life and health of all prisoners and must face consequences for its grave violations of international law. We call on all human rights defenders and relevant international organizations to support our call for the release of Palestinian prisoners and their protection from this deadly virus.

To Complete 21st Century World Peace ··

The 21st century is the original century of world peace.

This requires the following steps:

First stage
Special structural reforms should be implemented to ensure that all UN structures are in line with the implementation of the World Continental Peace Federation for the 21st Century

2nd step
The world should hold a forward contest for the implementation of the World Continental Peace Confederation, which is committed to the start of world peace, with all the leaders of each country participating in the United Nations.

3rd step
The whole world should establish the World Humanity Education Center to restore the true humanity of the world, centered on the United Nations, and strive to cultivate world leaders and leaders of each country.

4th step
The whole world must build a new peaceful cooperative partnership with each other, centered around the United Nations.

5th step
We need to build a new peaceful cooperative partnership with each other around the world, centering on the current United Nations. Representative countries of each continent shall be in the order of each country of the continent.

current United Nations. Representative countries of each continent shall be in the order of each country of the continent.

6th step
The current United Nations must be reborn as a world-centred United Nations with a new birth, and must complete a comprehensive world peace project to continuously pursue a solid continental peace federation system centered on the United Nations.

7th step
After the above process, we should hold the World Confederation of Peace and Action Resolutions, which are committed to the practice of world peace in the 21st century, with the participation of representatives from all continents, leaders of each country, and representative leaders.

Dr. Titi, was a pillar in the Palestinian community in the New Jersey/ New York area and in the United States; a legacy among us that will be sorely missed. His dedication and commitment to the diaspora was unwavering, a level of devotion that will never be forgotten.

May the care and love of those around provide comfort and peace to his family during this difficult time. Allah yirhamo.

التقرير اليومي حول مرض كوفيد19 – الكورونا: 2020/4/7

الإصابات:

بلغ عدد الإصابات بفيروس كورونا في فلسطين 260 حالة، بينها 13 حالة في المحافظات الجنوبية، والبقية في المحافظات الشمالية، فيما لا تتوفر معلومات شاملة حول الإصابات في كامل محافظة القدس، بسبب إعاقة الاحتلال الإسرائيلي للجهات الرسمية الفلسطينية من الحصول على معلومات المرضى هناك.

حالات جديدة: تم تسجيل 7 إصابات جديدة (قطاع غزة 1، بدو قضاء القدس 2، الجديرة 2/ دير جرير 1/ قلنة (1))

حالات التعافي: تم تسجيل 23 حالة تعافي لمصابين بمرض كوفيد 19 (18 في المحافظات الشمالية– 5 المحافظات الجنوبية)

حالات الوفاة: تم تسجيل حالة وفاة واحدة، لسيدة سبعينية من قرية بدو قضاء القدس.

عدد المصابين الحاليين: يبلغ عدد المصابين الحاليين بفيروس كورونا 236 مصاباً.

الفحوصات المخبرية: تم إجراء 15140 فحص لعينات مشتبه بإصابتها بمرض كوفيد19(كورونا) من المحافظات الشمالية والجنوبية في مختبرات وزارة الصحة منذ بدء رصد فيروس كورونا في فلسطين، وكانت جميعها سلبية، باستثناء الحالات الـ 260 المذكورة.

إجراءات الحجر البيتي:
يطبق الحجر الصحي على جميع القادمين إلى فلسطين والعمال العائدين من داخل الخط الأخضر لمدة 14 يوماً من تاريخ دخولهم إلى فلسطين.

The UN Office for the Coordination of Humanitarian Affairs in the
occupied Palestinian territory (OCHA oPt) latest situation report on
#COVID19 in the occupied #Palestinian territory: (1-6 April 2020)

"...As of 7 April, a total of 260 Palestinians have been confirmed to
have COVID-19 in the oPt, 247 in the West Bank (excluding East
Jerusalem Palestinians), and 13 in the Gaza Strip. Of these, one died on
25 March, 23 people have recovered, and the majority of the
remainder are asymptomatic. While the current number of people
detected positive for COVID-19 in the oPt, especially in Gaza, remains
low relative to other countries, this may reflect the limited testing
capacity..."   Read report in its entirety below:

On its 44th anniversary (30 March 1976), Palestine Land Day continues
to be the symbol of resistance against the ever-expanding Israeli
occupation and apartheid regime.

This historical day commemorates the killing of six Palestinians by
Israeli occupation forces while peacefully protesting against Israeli
confiscation of their land .

Today also marks the 2nd anniversary of the #GreatMarchOfReturn.

We continue to call for the end of the illegal blockade of #Gaza and
call on the implementation of relevant UN Security Council Resolutions
and for Israel to respect its obligations under international
humanitarian law.

While most of the world is practicing social distancing to try to stop the spread of #COVID19, Israeli prisons are still packed with #PalestinianPrisoners living in unsanitary conditions without the chance to protect themselves from the virus. With over 700 sick Palestinian prisoners, over 200 #PalestinianChildren, and tens of women and elderly in overcrowded Israeli prisons, we call on the international community and the United Nations to oblige the Israeli occupation to release Palestinian prisoners, especially those who are most at risk during this difficult time.

To make matters worse, the #IsraeliOccupation removed all doctors and nurses who were previously tending to Palestinian prisoners leaving only one nurse per prison which constitutes as medical negligence, especially as prisoners in overcrowded prisons are trying to fight the current COVID19 pandemic.

"...the Bethlehem area, which is the epicenter of Palestine's COVID-19 outbreak and under strict measures of quarantine, has been targeted by Israeli settlers, who have exploited the cordoning off of the area, uprooting at least 1,200 olive and vine trees as part of their ongoing environmental terrorism. When news of suspected cases of COVID-19 at a hotel in Bethlehem appeared, Israeli social media users applauded the news with provocative comments and incitement against the Palestinian people, including such statements as: "amazing, I wish it kills them all", "finally, good news" and "I wish success to corona".

This utter disregard for Palestinian lives is without doubt the result of years of systematic dehumanization of the Palestinian people by the Israeli occupation authorities, from the Prime Minister on down. It has created a culture of incitement and hate prevalent among supporters and enablers of the Israeli occupation, especially among extremists..."

"...Following the Israeli announcement just last week of plans to construct more than 14,000 settlement units throughout the Occupied Palestinian Territory, including in particular in and around Occupied East Jerusalem and Bethlehem, severing the continuum of these cities and further isolating them from the rest of their natural Palestinian environs, the Israeli Prime Minister made yet another brazen settlement announcement on 25 February.

Yesterday, Netanyahu pledged to build 3,500 new illegal settlement units in the so-called "E-1" area, aiming to connect the illegal "Maale Adumim" settlement with Occupied East Jerusalem. These plans are not only in grave breach of the Fourth Geneva Convention, thus constituting war crimes, but also threaten to completely sever the northern and southern parts of the West Bank and further isolate East Jerusalem, completely undermining the Territory's contiguity..."

"...On 18 February, Israel announced that it plans to construct yet another illegal settlement, comprising 9,000 units and a shopping centre, in Occupied East Jerusalem between the Palestinian neighborhoods of Kafr Aqab, Qalandiya and Al-Ram. If implemented, this would entail the demolition of dozens of Palestinian homes and the forcible transfer of hundreds more Palestinian civilians and further undermine contiguity of the Palestinian land. This provocative scheme was followed by the announcement today of plans to construct 2,200 additional settlement units in the illegal "Har Homa" settlement in the Palestinian neighborhood of Jabal Abu Ghneim in Occupied East Jerusalem, as well as another 3,000 units in the illegal settlement of "Givat Hamatos", which would completely sever the connection between Occupied East Jerusalem and Bethlehem..." States must not recognize as legitimate changes resulting from illegal Israeli policies and measures and acts of aggression in Occupied Palestine. An end must be brought to this illegal Israeli occupation of the West Bank, including East Jerusalem, and the Gaza Strip – the territory comprising the State of Palestine on the pre-1967 borders – and the Palestinian people must exercise their long-overdue right to self-determination, independence and sovereignty and must realize justice..."

Read: The official position by the State of #Palestine regarding the recent so-called "Deal of the Century" announced by the current Trump administration

"The State of Palestine rejects this 'plan' and considers the so-called plan a declaration of hostility against the inalienable rights of the Palestinian people. This 'plan' poses a serious threat to the rules-based international order and the foundations of international law. It is a conceptually flawed, absolutist, and irresponsible agreement of surrender the US administration wants to coerce Palestine into signing, thus reverting to a world where conquerors take the spoils as victims are stripped of life and property..." "...From the start of 2020, the Israeli government has continued the same destructive trends as in 2019, escalating settlement activities with the obvious aim of not only entrenching its illegal occupation but annexing our land, an unlawful objective publicly declared by various Israeli officials, including the Prime Minister and members of his Cabinet. As typical of this ruthless occupation, the latest plans for the construction of thousands more illegal colonial settlement units in our land were revealed as the Palestinian people were in the midst of holiday celebrations, undermining spirits and hopes for the new year..."
